

Ana Paula Girol, PhD

Padre Albino University
Center (UNIFIPA), Rua
dos Estudantes, 225.
Parque Iracema, 15809-
144. Catanduva, SP,
Brazil

Graduated in Biological Sciences (Bachelor's Degree) from the São Paulo State University "Julio de Mesquita Filho", São José do Rio Preto-SP (IBILCE / UNESP). Master in Morphology from the Federal University of São Paulo, São Paulo-SP (UNIFESP / EPM), PhD in Genetics, concentration area Human Genetics and Cellular and Molecular Biology and Post-Doctorate in Immunomorphology from IBILCE / UNESP. Pro-rector of Postgraduate Studies and Research at the Padre Albino

University Center (UNIFIPA), Catanduva-SP. Professor of the Graduate Courses in Medicine and Biomedicine at UNIFIPA. Permanent professor at the Postgraduate Program in Biosciences at IBILCE / UNESP and at the Postgraduate Program in Structural and Functional Biology at UNIFESP / EPM.

She is a biologist with 30 years of experience in teaching and research. She has experience in Morphology, with an emphasis on Cell Biology, Histology and Embryology. She also works with the development of innovative teaching/learning strategies, as the use of art in health education. Her research is related to the study of medicinal plants, bioactive compounds and biomaterials in inflammatory and tumor processes, mainly in preclinical trials, using in vivo and in vitro models.

She supervised/co-supervised the research work of internship's, Bachelor's, Master's and Doctorate students from Brazil and foreign institutions, having also participated in various evaluation juries. She collaborated with Foreign University Institutions in carrying out Courses/workshops for Graduate and Postgraduate studies.

She has co-authored book chapters and authored/co-authored scientific papers in specialized journals. She collaborates as co-editor and reviewer in different journals, and has been a member of the organizing committee of National and International Conferences on Research in Higher Education and Natural Products.
