

	Full Professor Angélica Ribeiro Soares
	Aquatic Organisms Research Group ("GPNOA") Institute of Biodiversity and Sustainability (NUPEM) Rio de Janeiro Federal University (UFRJ), Macaé, RJ 27920-570, Brasil angelica.r.soares@gmail.com angelicasoares@macae.ufri.br
She earned her degree in Chemistry, as well as her master's and Ph.D. in Organic Chemistry, from Fluminense Federal University. She is currently a Full Professor at the Federal University of Rio de Janeiro and serves on the board of the Graduate Program in Marine Biotechnology at the Admiral Paulo Moreira Institute for Marine Studies (IEAPM)/Fluminense Federal University. In 2014, she completed a postdoctoral fellowship at the Smithsonian Marine Station in Fort Pierce, USA. Her academic career has been devoted to Organic Chemistry and Marine Natural Products, with research interests spanning the chemistry of marine natural products, marine ecosystem services, and marine chemical ecology. She is a member of the Brazilian Society of Pharmacognosy and the Brazilian Association of Aromatherapy and Aromatology, and associate researcher to the University of La Laguna, Spain, and the Research Institute of the Rio de Janeiro Botanical Garden, Brazil.
