

	Cristiane Damas Gil, PhD Associate Professor Department of Morphology and Genetics, Escola Paulista de Medicina, Universidade Federal de São Paulo (EPM/UNIFESP) Rua Botucatu 740, CEP 04023-900, São Paulo, SP, Brazil cristiane.gil@unifesp.br
Cristiane D. Gil is Associate Professor and Head of the Department of Morphology and Genetics at the UNIFESP, Brazil. She holds a PhD in Sciences (2005) from UNIFESP and completed postdoctoral training in Inflammation at IBILCE-UNESP, Brazil. Dr. Gil leads research at the Laboratory of Morphological Sciences and Inflammation (LACIMI)/UNIFESP, focusing on the cellular and molecular mechanisms of inflammation, particularly the roles of annexins and galectins as therapeutic targets. She employs in vivo and in vitro models combined with histopathological, immunohistochemical, pharmacological, and ultrastructural analyses to investigate inflammatory processes.
