

	Eric Mariano, regulatory affairs specialist / master`s degree student in metrology and quality (INMETRO)
	eric.mariano@prismaqs.com
Éric Domingos Mariano holds a bachelor's degree in Biomedical Sciences and a postgraduate diploma (PGDip) in Pharmaceutical Regulatory Affairs. He is currently a Master's degree student in Metrology and Quality at the National Institute of Metrology, Quality and Technology (INMETRO), where his research focuses on regulatory readiness level metrics for biotechnological products. His career is defined by the convergence of scientific rigor and regulatory compliance in the biotechnology sector. As co-founder of Prisma Quality & Science, he dedicates himself to strategic consulting for high-complexity challenges, employing an evidence-based approach to decision-making and quality assurance in the regulated market.
