

	Luciana Cora, PhD/Full Professor Center of Integrative Sciences, Alagoas State University of Health Sciences, Jorge de Lima 113, Trapiche da Barra, Maceió, Alagoas, 57010-382, Brazil. luciana.cora@uncisal.edu.br
Full Professor at the Alagoas State University of Health Sciences, she holds a Bachelor's degree in Biomedicine from São Paulo State University and Master's and Doctoral degrees in Pharmacology. Her scientific expertise is focused on gastrointestinal motility, with particular emphasis on the neurophysiological mechanisms underlying gastrointestinal motor control and their modulation under physiological and pathophysiological conditions. Her research supports the development and validation of noninvasive methodologies for the assessment and modulation of gastrointestinal motility, with direct implications for the understanding of functional gastrointestinal disorders.
